Elmherst Gardens

Post Office Box 575, San Jacinto, Calif.

Located in one of the most productive, healthful, scenic communities in all Southern California. Beautiful Mt. San Jacinto abounding in mineral and hot springs, towers above to the east. There are many fine hotels, motels and resorts in the surrounding area, luring the tourists from all parts of the country.

Thanks . . .

Elmherst Gardens sends to all of you our best wishes in this short note. It is quite impossible to answer you each individually, therefore I am taking this way of answering you all as a group.

We all send you sincere thanks. For the orders, cards and letters we are grateful.

Apparently from your letters we find our plants and flowers are speaking well for themselves. So we have decided to eliminate from the catalog entirely personal testimonials. However, we greatly appreciate your generous offers.

We are hybridizing, as well as growing fine plants. Have been in horticulture both under glass and out-of-doors all our lives. Naturally we feel certain we are qualified to know the best. Therefore we offer only one grade of plants --- the finest!

All varieties of perennials we sell can be successfully grown by anyone. If you have never grown them do try some by all means. If you love flowers you will never regret having done so. Nor will you regret having purchased them from Elmherst Gardens.

We ship you plants we would be happy to receive, were we purchasing them from you. We positively will not sell stored or dried out plants. We advertise live plants. We have no others.

The newer hybrids of today are vastly different from the early type flowers. Gorgeous in color, size and shape. Thrilling to all who see them unfold for the first time each continuous year.

Please remember California plants can be successfully grown anywhere.

We grow our own plants. Ship anywhere. Ship **ONLY** freshly-dug live plants on orders. Guarantee good condition on arrival.

Prompt service - State inspected.

Sincerely,

Mrs. Rhea Graham.

TERMS OF SALE

Before Ordering Please Read!

Cash with order, check, draft or money order. No stamps, no C.O.D. orders accepted. If you send cash, register your letter.

All orders prepaid in the U.S.A. amounting to **\$4.00 or over**. On orders below this amount **add 45c** for packing and postage please, except on express shipments stating otherwise, etc.

No Plant Orders Accepted

For Less than \$2.50

Orders filled in rotation as received. Iris and Daylilies shipped anytime of year wanted, except during the winter season.

Our Guarantee: All plants from husky, healthy, pest-free hardy stock, California grown, of the finest grade only.

Correctly labeled and true to name.

If plants arrive in bad condition, notify us at once. In case of replacement, transportation costs must be paid by purchaser.

We Give A Bonus---with orders of \$5.00 or more. List several extra plants either Iris or Daylilies, so we may be able to send Bonus Plants picked from these listings, if possible.

With each **\$5.00** worth of Daylilies or Iris plants ordered, we will include, besides the bonus, 1 pkt. of hand-pollinated hybrid Daylily seed, as long as seed lasts. Naturally the earlier you order the better if you want seed. Have lots of seed, however we do not know how many will want it.

Due to conditions beyond our control in your garden, we will not be responsible after planting.

FREE---If you write on your order that you will pay the Express Charges --- on delivery of your plants, we will also include FREE 2 Iris or Daylily plants, your choice picked from the price list of 55c through \$1.00; one of a variety.

It is agreed that in no case shall we be liable for more than the original cost paid.

We reserve the right to withdraw any plant from sale at anytime.

We do not list the blooming dates as they vary so in different localities.

Garden Clubs and Societies who wish to purchase named varieties in quantity write us your wants. We may be able to offer you quantity prices if we have what you wish. This catalog voids all previous issues.

Bearded Iris

The perennial supreme. "More beautiful than orchids," has been the comment of so many persons visiting our gardens when in bloom during the past years.

That question would no doubt be rather hard to prove. However when one carefully opens the standards of a lovely Iris flower, then looks down into the very heart of it, you wonder if it could possibly be real.

This year we have priced these gorgeous flowers so everyone can afford them. Those offered in unnamed collections will be chosen from named varieties listed in the catalog. The same varieties that others will pay higher prices for in order to know the names of each.

You will make no mistake in selecting any listed herein. We will see that you all get beautiful flowers.

Plant so the rhizome is barely covered with dirt.

Choose a spot in the sun in well drained soil. Never plant down in a hole where water will stand around the plant.

In preparation, before planting, work well into the soil, one good handful of steamed bone-meal per plant.

Plant immediately. Firm soil well around each plant with your foot, so it will be solidly placed. Water well at once.

Your newly set plants will require water, so they can grow a good root system.

After becoming established water very sparingly.

SELECTED ELMHERST SEEDLING HYBRIDS

Either Iris or Daylilies. Having many lovely seedlings too beautiful to discard, I have decided this season to offer some of them in collections. To those of you who do not especially care for names this will really prove a bargain. Many visitors seeing these beauties in bloom have asked me for them; so I am offering them to all who may possibly wish for new varieties, but not have the price to pay for new named introductions. They will be shipped after blooming period. Each one will be different.

\$1.00 Each --- 7 for \$6.50 --- 12 for \$10.00

(DAYLILIES)

The Flower With a Future is one of the most fascinating of all time. Its beauty and charm are outstanding. There is so much to be had for so little effort on the part of the gardener. The modern hybrids have a wide range of gorgeous colors. The many types of flowers are amazingly beautiful as well as thrilling. They respond to good treatment, increasing flower size and blooming period.

They should be left in clumps undisturbed for many years for profusion of blossoms. For landscape planting, they are ideal. They grow in full sun or partial shade giving splendid flowers either place.

We offer the finest of sturdy, healthy plants, reasonable.

Do not plant deeply. Plant the corm just barely under the top of soil. Water well at once. They like a watering overhead now and then during the summer months. If you want lots of flowers feed well three times yearly with fertilizer on the organic side. Use a balanced fertilizer low in nitrogen. Work in well around the plant and water at once. They love plenty of humus. Rake up your leaves and scatter around your Daylilies. They do their best from the third year on, but should bloom the first year. They will grow in any climate. In cold sections mulch well in the winter months. Recommend planting from two to three feet apart. Other bulbs or plants can be grown in between them for the first two years. They can be planted anytime except in very cold weather.

Lythrum

A beautiful perennial that thrives from coast to coast and Canada to the Gulf. Will grow in full sun or partial shade. It is the easiest of all hardy perennials to grow, requiring very little care. Once planted, like the Daylily, it is there for years, giving more lovely flowers each continuous year. Blooms continuously for weeks right on through the summer's heat. It is a splendid cut flower. Like the Daylily, Iris and Phlox, it will do well in cold climates as well as hot, in any type soil. It makes bushy, specimen plants 2 to 3 feet across. The foliage colors purple red in the fall. Shipped at proper planting time while dormant.

MORDEN PINK—3 ft. Ht.— **Each \$1.00**

Phlox-pink flowers are produced constantly from June to late September. Makes a bushy plant.

PROLIFIC—4 ft. Ht.— **Each \$1.25**

New variety has glowing rose flowers, blooming freely right through summer's heat. Makes a bushy plant. A fine background for lower perennials.

ROBERT—2 ft. Ht.— **Each \$1.50**

A new variety growing only 2 feet tall that makes a very neat, bushy, rounded plant. Splendid bloomer of a very bright pink.

MORDEN GLEAM—40 inches Ht.— **Each \$1.75**

A brilliant, gleaming carmine having a very long blooming season. After it is through blooming the seeds color attractively as well as the foliage. This is a new variety and very lovely.

Hardy Phlox

Truly a superb perennial. Huge flower heads of the most gorgeous pastels and bright shades. Thrives in either partial shade or full sun. Splendid cut flowers as well as beautiful in the garden. 24 to 30 inches tall.
